EDUCATION

GRAPHIC ERA DEEMED TO BE UNIVERSITY, DEHRADUN

BTech in Computer Science & Engineering with Specialization in Artificial Intelligence

- CGPA: 8.86/10

PROJECTS

AI-POWERED CAREER RECOMMENDATION SYSTEM

Project

July 2025 – October 2025

- Developed an AI system that recommends career options based on users' skills and interests utilizing NLP techniques.
- Implemented BERT-based sentence embeddings (all-MiniLM-L6-v2) and cosine similarity to align students with appropriate career paths.
- Comprehensive Student Management: Enabled addition, viewing, and management of student profiles with detailed information.
- Technology Stack: Python, scikit-learn, Supabase (PostgreSQL), HTML5, CSS3, JavaScript, Bootstrap 5

SMART DELIVERY SYSTEM

Project

August 2024 – November 2024

- A web-based application designed to optimize delivery routes and efficiently manage customer orders in urban areas such as Dehradun.
- Utilizes the A* algorithm to find the shortest routes.
- Technology Stack: Python, C++, HTML5, CSS3, JavaScript, Bootstrap 5

CERTIFICATIONS

INTRODUCTION TO PROJECT MANAGEMENT — GOOGLE

January 2025

- Earned certification covering Agile, Waterfall, project planning, risk management, and stakeholder communication.
