Education

Graphic Era Deemed to be University, Dehradun **2023 - 2027**
B.Tech in Computer Science & Engineering with Specialization in Artificial Intelligence *8.86/10 CGPA*

Projects

AI-Powered HR Management System: **Duration: [December 2025 – March 2026]**

- Built a **full-stack AI-powered HR platform** automating resume screening, workforce analytics, and attrition prediction.
- Developed **predictive ML models (Logistic Regression)** for employee performance classification and attrition risk analysis.
- Leveraged **BERT-based embeddings (all-MiniLM-L6-v2)** with cosine similarity to achieve intelligent candidate-job matching.
- Designed scalable backend using **Flask and RESTful APIs** for modular and efficient system integration.
- Deployed using **Docker and Render**, ensuring portability and production readiness.
- Achieved 90 percent accuracy in resume screening using semantic similarity.
- **Technology Stack**: Python, Flask, scikit-learn, BERT (Sentence Transformers), SQL, HTML5, CSS3, JavaScript, Bootstrap, Chart.js, Docker

AI- Powered Career Recommendation System: **Duration: [July 2025 – October 2025]**

- Built an AI system that recommends career options based on user skills and interests using **NLP techniques**.
- Uses **BERT-based** sentence embeddings (all-MiniLM-L6-v2) and **cosine similarity** to match students with suitable career paths.
- Comprehensive Student Management: Add, view, and manage student profiles with detailed information
- **Technology Stack**: Python, scikit-learn, Supabase (PostgreSQL), HTML5, CSS3, JavaScript, Bootstrap 5

Online Car Rental System: **Duration: [August 2024 – October 2024]**

- Developed a full-stack web application for car rental booking and management.
- Implemented **user authentication and session management** using PHP for secure login and registration.
- Designed and integrated a **MySQL database** to efficiently manage users, car listings, and booking records.
- Built an **admin dashboard**to add, update, and delete car details dynamically.
- **Technology Stack**: PHP, HTML5, CSS3, JavaScript.

Technical Skills

Languages: Python, C++, JavaScript
Backend: PHP, Flask
Frontend: HTML5, CSS3, JavaScript, Bootstrap
AI / ML: Machine Learning, Natural Language Processing (NLP), BERT (Sentence Transformers), scikit-learn
Clouds & Databases: MySQL, PostgreSQL, SQLite
Developer Tools: Git, GitHub, Docker, VS Code, XAMPP

Certifications

AWS Cloud Practitioner Essentials — AWS Training & Certification **Feb 2025**
Graphic Era University

- Earned industry-recognized AWS Cloud Practitioner certification covering compute, storage, networking, IAM, billing, and security.
- Developed hands-on understanding of core services including EC2, S3, RDS, IAM, VPC, and CloudWatch.

AWS JAM Day — Certificate of Participation **Apr 2025**
Graphic Era University

- Participated in hands-on technical challenges involving Generative AI, AWS Cloud Engineering, and Machine Learning.
- Strengthened teamwork and real-time cloud problem-solving skills.
